## Q 50-360 MS Sprayable Seam Sealer

### Characteristic:

50-360 is an aromatic and isocyanate-free, sprayable sealant. Due to its unique composition OEM seams and structures can be modeled.

50-360 offers high-precision processing without overspray, is wet-on-wet and overcoatable after 10 minutes, and has excellent corrosion protection. The product does not shrink and has excellent adhesion

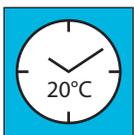

### Application:

The substrate must be firm, clean, dry and free of grease. Process by using a pneumatic cartridge dispensing gun. Skin formation starts after 20 min, curing speed is 2mm / 24h

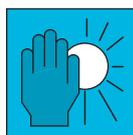

### Technical data:

Density: 1,60 g/cm<sup>3</sup>

Colors: beige, black

2 mm / 24 h

store at cool  
and dry place

Shelf life:  
12 Month
